# RIBBON

YEREKESHEVA Akmaral

## Beautifully hand-dyed ribbon with an elegant color gradation.

M-71HG-F

High-Pitch Gradation Ribbon (6m)

made in Japan

[Size] length min. 6m, weight min. 35g [Material] rayon

[Color] PPBU×W×SHY (PurpleBlue×White×ShinyYellow)  
LIO×WIR×N (LightOrange×WineRed×Navy)  
DEN×FRBU×RYBU (DeepNavy×FrenchBlue×RoyalBlue)  
VI×PSP×RRK (Violet×PassionPink×Lilac)  
B×R×W (Black×Red×White)

**Video Available**  
Experience the ribbon's true beauty in the video.

Proudly Made in Japan  
SASAKI Ribbons combine exceptional functionality with elegant beauty.

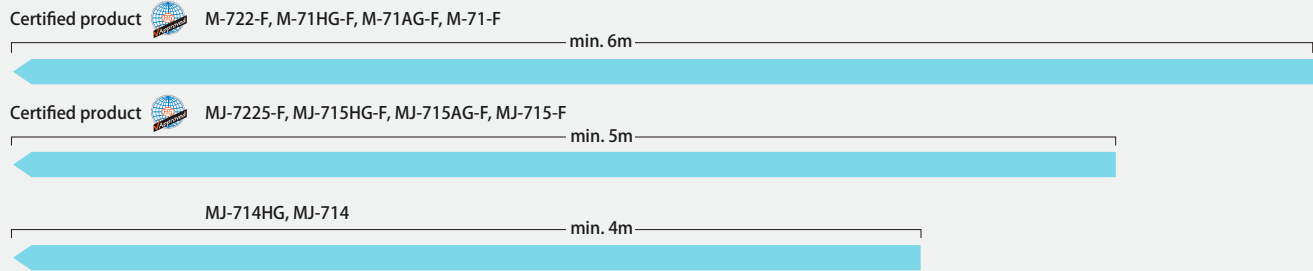

### Features of SASAKI Ribbons

From yarn selection to the final finishing process, every step reflects our uncompromising attention to detail. The superior quality supports a wide range of performance levels. The carefully controlled weaving method helps reduce static electricity and prevents tangling.

Certified by the FIG (Federation Internationale de Gymnastique) for its standards and quality.

### Size comparison

## Dynamic color and graceful motion from innovative new materials.

NEW

M-722-F

Vivid Ribbon (6m)

made in Japan

[Size] length min. 6m, weight min. 35g [Material] polyester, rayon

[Color] FRR (FreshRed) KEP (FluoPink) KEY (FluoYellow) EMG (EmeraldGreen)

○ The combination of polyester and rayon threads produces brilliant colors and a soft, elegant texture.

○ Polyester's elasticity provides beautiful movement and excellent shape recovery.

○ Highly resistant to moisture and rarely shrinks when washed.

● Can be ironed at low temperature.

NEW

MJ-7225-F

Vivid Ribbon (5m)

made in Japan

[Size] length min. 5m, weight min. 30g [Material] polyester, rayon

[Color] Same as M-722-F

○ The combination of polyester and rayon threads produces brilliant colors and a soft, elegant texture.

○ Polyester's elasticity provides beautiful movement and excellent shape recovery.

○ Highly resistant to moisture and rarely shrinks when washed.

● Can be ironed at low temperature.

MOVIE

MJ-715HG-F

High-Pitch Gradation Ribbon (5m)

made in Japan

[Size] length min. 5m, weight min. 30g [Material] rayon

[Color] Same as M-71HG-F

○ The end color of the 5m ribbon may differ slightly from the photo above.

MJ-714HG

High-Pitch Gradation Ribbon (4m)

★Colors available in 4m length

made in Japan

[Size] length min. 4m [Material] rayon

[Color] PPBU×W×SHY (PurpleBlue×White×ShinyYellow)  
VI×PSP×RRK (Violet×PassionPink×Lilac)

○ The end color of the 4m ribbon may differ slightly from the photo above.

- Due to the characteristics of the dyeing process, slight irregularities or color bleeding may occur, but these do not affect performance.
- To maintain product quality, please avoid dyeing or washing, as the material may slightly change in color or shrink.
- If you do need to wash or dye it, please make sure that it meets the required length for competition before using it.

Vivid colors and delicate gradations add dynamism to the performance.

High-quality printing technology enable vivid, flexible color expression.  
Its attractive feature is its vivid and clear color.

Video Available

Experience the ribbon's true beauty in the video.

[Color] Same as M-71-F

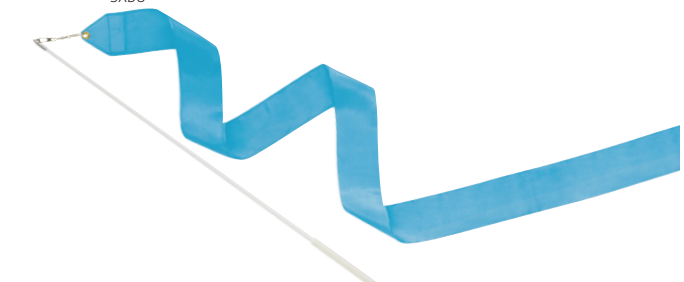

**MJ-714**  
Rayon Ribbon (4m)

made in Japan

[Size] length min. 4m [Material] rayon  
[Color] R (Red) CYP (CherryPink) P (Pink) LD (Lavender) TQBU (TurquoiseBlue) SXBU (SaxBlue) ICMI (IceMint) Y (Yellow) W (White)

★Colors available in 4m length

**MJ-760S**  
Ribbon Set

made in Japan

[Size] Ribbon / length min. 3m, Stick / length 50cm, dia. 1cm [Material] Ribbon / rayon, Stick / fiberglass, Grip / rubber  
[Color] Ribbon Y (Yellow) ICMI (IceMint) SXBU (SaxBlue) LD (Lavender) P (Pink) CYP (CherryPink) R (Red)  
Stick W (White)

- The swivel is detachable.
- It comes with a rubber grip.
- The grip is not replaceable.

○ The M-71AG-F and MJ-715AG-F are printed on one side only. Please note that the color and texture may differ slightly from the photo above.  
○ There may be some minor bleeding or slight loosening of the fibers due to the print or dyeing process, but this does not affect the usability of the product.  
● Due to the characteristics of the material, it may shrink when it absorbs moisture, so please avoid dyeing or washing. If you do need to wash or dye it, please make sure that it meets the required length for competition before using it.

○ Most white ribbons are intended for dyeing, so they are cut to a length that allows for the dyeing process. The shrinkage rate may vary depending on the dye and environmental conditions. If you plan to dye the ribbon, please make sure that it meets the required competition length before use.

# STICK

Achieve perfect ribbon control  
with SASAKI sticks.

## Features of SASAKI Sticks

Their perfect balance of flexibility provides smooth,  
precise movement. Choose from a range of sizes  
to suit your level and performance style.

Certified by the FIG (Federation  
Internationale de Gymnastique)  
for its standards and quality.

○ No grip included.

All sticks come with one swivel and one stick case.

SASAKI sticks come with this case.

○ The Split Ring that connects to the stick may wear out or break over time due to friction. Please replace it regularly.  
When replacing, use SASAKI Strings (M-743/M-744) or Swivels (M-749), which are sold separately.

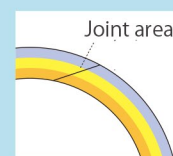

# BALL

Beyond the "ideal ball"  
SASAKI's Made-in-Japan quality  
continues to evolve.

## Features of SASAKI Balls

The special coating that fits perfectly in your hand is SASAKI's unique technology.

By angling the rubber joint surface, unevenness is minimized for a smoother finish.

A three-layer soft rubber structure enhances elasticity.

Developed SASAKI's original air valve rubber for stable air pressure.

Certified by the FIG (Federation Internationale de Gymnastique) for its standards and quality.

"How to care for your ball." ~ To help it last for a long time. ~

Use a ball pump to adjust the air pressure.

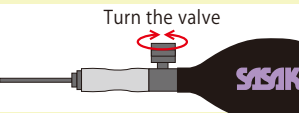

M-23P  
Ball Pump

made in Japan  
[Size] length 17cm  
[Material] Body / synthetic rubber  
Metal parts / chrome-plated brass  
Tube / PVC (polyvinyl chloride)  
[Color] B×LD (Black×Lavender)

Insert the pump needle straight into the ball. Press the pump to inflate.

Turn the valve  
To release air, slightly loosen the valve and gently press the ball while keeping the needle inserted.

Regularly check and maintain the air valves!

M-746  
Ball Smoother

made in Indonesia  
[Content] 5 g  
[Ingredient] glycerin

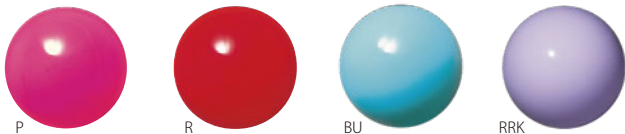

Apply a small amount of lubricant to the tip of the ball pump needle. Insert the needle into the air valve and move it up and down several times. This will lubricate the valve, helping to prevent it from drying out and leaking air.

Please use the SASAKI ball pump for inflating SASAKI balls.

- If too much air is added, the rubber may stretch. Be careful not to overinflate.
- Do not let all the air out, as this may cause damage.

Vinyl ball

M-21C  
Junior Vinyl Ball

junior size made in Japan  
[Size] dia. 13~15cm  
[Material] polyvinyl chloride  
[Color] P (Pink) R (Red) BU (Blue) RRK (Lilac)  
○ Due to the characteristics of the material, slight variation in size may occur.  
Returns and exchanges for size differences are not accepted.  
○ Please use a high-pressure pump to adjust the size if necessary.  
○ Suitable for a variety of uses outside of competition.

# HOOP

Graceful flexibility that draw a beautiful trajectory and boast high stability—the SASAKI hoop delivers both.

## Features of SASAKI Hoop

Designed to accommodate both firm and flexible preferences with special joint structures. Available in three types to match your level of skill, precision, and flexibility.

Certified by the FIG (Federation Internationale de Gymnastique) for its standards and quality.

## M-16-F Light Hoop

made in Japan

[Size]

【FIG certified for Junior】 Inside dia. 75, 77cm, weight min. 260g

【FIG certified for Senior】 Inside dia. 81, 85, 89cm, weight min. 300g

[Material] Polyethylene

[Color] W (White)

○ The heat welding process makes the joint surface smooth and even.

○ This flexible material allow you to easily reshape minor deformation of the hoop by hand.

● Be sure NOT to deform the hoop during storage.

Suitable flexibility allows for a wide range of performance. Easy to control and recommended for beginners as well.

## M-14-F Flexible Round Hoop

made in Japan

[Size] Inside dia. 81, 85cm, weight min. 300g

[Material] Polyethylene

[Color] W (White)

○ The heat welding process makes the joint surface smooth and even.

○ This flexible material allow you to easily reshape minor deformation of the hoop by hand.

● Be sure NOT to deform the hoop during storage.

The hard hoop maintains its round shape and minimizes wobbling for more accurate performances.

## M-11ST-F Round Hoop

made in Japan

[Size] inside dia. 81, 85cm, weight min. 300g

[Material] polyethylene

[Color] W (White)

● Be sure NOT to deform the hoop during storage.

# DECORATION

Big hit tape with a shining effect, like an aurora at every motion.

## HT-8 Aurora Adhesive Tape

made in Japan

[Size] width 1.5cm, length 33m

[Material] polyethylene pterephthalate and polypropylene

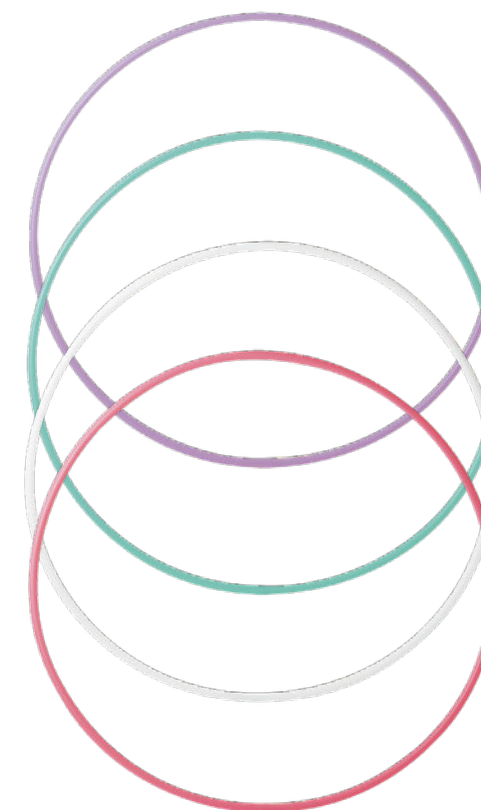

[Color] AUBR (AuroraBerry) AUP (AuroraPink) AUW (AuroraWhite)

AULYM (AuroraLime) AUAQ (AuroraAqua) AUPP (AuroraPurple)

○ Various colors appear on the tape through a stretching process.

○ One Roll is enough to decorate 2 - 3 hoops.

● We do not accept returns or exchanges based on color.

## M-13 Standard Hoop

made in Japan

[Material] polyethylene

[Color・Size] LD II (Lavender II) / inside dia. 65, 70, 75cm

ICMI (IceMint) / inside dia. 65, 70, 75cm

W (White) / inside dia. 60-90cm (every 5cm)

P (Pink) / inside dia. 60-90cm (every 5cm)

● The joint part is processed by heat welding.

## HT-1 Hologram Adhesive Tape

made in Japan

[Size] width 1.5cm, length 33m

[Material] polypropylene

[Color] SI (Silver)

○ Holographic processing

○ One Roll is enough to decorate 2 - 3 hoops.

## HT-3 Color Hologram Adhesive Tape

made in Japan

[Size] width 1.5cm, length 33m

[Material] polypropylene

[Color] B (Black), R (Red), GD (Gold)

○ Holographic processing

○ One Roll is enough to decorate 2 - 3 hoops.

## Caution

The hoop is made of durable plastic and polyethylene for RG performance but the continuously excessive impact may cause damage to the hoop.

● Use only on RG floor. ● Do not hit hard objects.

● Avoid humidity and do not store the hoop in a deformed condition.

# CLUBS

Natalie de la Rosa  
Photo by Kateryna Tytarenko

## SASAKI clubs used by top gymnasts around the world.

### Features of SASAKI Clubs

The full rubber body provides excellent durability and stability. It provides smooth handling and enhanced grip, helping to reduce missed catches. The Double Lock System features two connection types, quick and light, or deep and tight which is allowing gymnasts to select based on performance style. The design enables forming large, smooth circles for routines requiring a high level of difficulty.

○ The tightness of the connection may vary slightly between clubs.

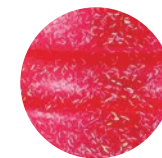

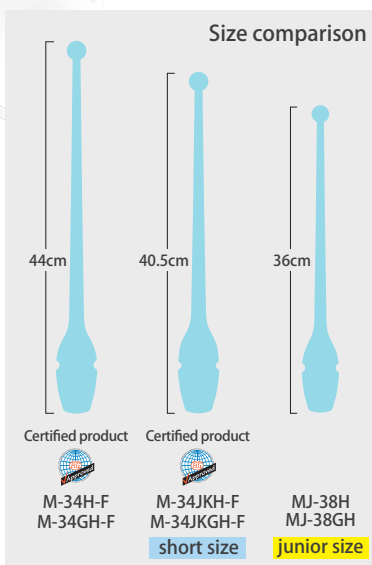

Light connection

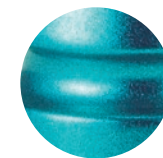

Deep connection

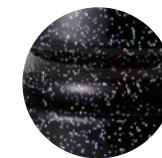

Certified by the FIG (Federation Internationale de Gymnastique) for its standards and quality.
